

HOW TO PREPARE A HOUSE FOR REAL ESTATE PHOTOS

GENERAL

Thoroughly clean the whole house (vacuum carpet, mop hard-surface floors, clean counter tops).

Clean windows and all mirrors.

YOU

I appreciate all help and suggestions! I will ask for a simple walk-through before setting up my equipment. This will give you (and/or your listing agent) the opportunity to point out details and features of your home that you want included in your marketing photos. Once I begin, please try to stay out of the way as wide-angle photos can

include adjacent rooms where you may inadvertently walk into the frame. I love friendly conversation, but only before or after the shoot as I need 100% focus (pun intended) to get the best shots of your home.

Typical photo shoots average 1.5 - 2.5 hours depending on the size of the house and number of photos taken. Add another 1-2 hours if a walk-through video is ordered.

COVID-19 PRECAUTIONS

1. Please open at least one window in each room 1 hour prior to my arrival. I will close the windows prior to taking photos.
2. If possible, please vacate the house during the photo shoot. If that is not practical, please make sure face masks are utilized.
